

Internet Browser-How to Manage Favorites?

What Internet browser do you use? Internet Explorer, Google Chrome, Edge or something else? This discussion will cover the different methods to save, edit or delete your Internet Favorites or Bookmarks.

Manage Internet Explorer Favorites:

The best web site for Internet Explorer Favorite information:

<https://www.gcflearnfree.org/internetexplorer/adding-and-managing-favorites>

Once you get to the site, save it as a favorite because you will likely need to return to it in the future.

Internet Explorer manages favorites as a file within a folder. All your favorites are stored in folder:

C:\Users\“Your User Name”\Favorites\

If you don’t know “Your User Name”, go to “C:\Users” and find the folder with today’s date. The folder name will be your user name.

Manage Google Chrome Bookmarks:

The best web site for Google Chrome Bookmark information:

<https://www.gcflearnfree.org/chrome/bookmarking-in-chrome>

Once you get to the site, save it as a favorite because you will likely need to return to it in the future.

Use Google Chrome Bookmark Manager to save your favorite web sites.

Manage Windows 10 Microsoft “Edge” Browser Favorites:

The best web site for Microsoft “Edge” Favorite information:

<https://www.gcflearnfree.org/edge/adding-and-managing-favorites>

Once you get to the site, save it as a favorite because you will likely need to return to it in the future.

Use Microsoft Edge Favorite Manager to save your favorite web sites.
